1. Go to BMA Seminary Website: www.bmats.edu
2. Select “Keller Library”
3. Select “Search the Catalog”
4. The “Quick Search” screen will appear.
5. Enter the Author's name, then click “AUTHOR”
6. Enter a title or the first part of a title, any word or partial word in a title. Then click “TITLE” to locate any items with this search term in the title.
After a search, Athena Webserver lists all items that match the search criteria.

<table>

A Remote Catalog Search

- From the search results screen, click the title. You will see the Full Description screen.

- Click on underlined Subjects in order to search according to those terms.
To display the item's card description:
Click “Show Card.”
To display the number of copies of an item in the library click “Show Copies.”

Click “Previous” and “Next” to view information for the next title in the search result.

Click “Look Left” or “Look Right” to see the next item on the shelf.
A Remote Catalog Search

Use Advanced Search to:

a. Limit a search to something other than author, title or subject
b. Specify a search using more than one search term.
c. To limit a search term to a particular type of information, open the list on the far right of the term and choose a limit category.
d. If using more than one category, indicate the relationship between search terms by choosing “AND,” “OR,” or “NOT” from the lists between the search term boxes.
e. Choose the “Browse” button to let Athena help you select valid search terms.
